I agree. Plus, they will still be responsible for cleaning up the groundwater. It was the groundwater filters that are the basis of our case.

On a slightly divergent note. Since I have been so swamped and unable to spend time on the penalty justification, Xiangyu has volunteered to put together a first draft for me. So hopefully we'll have something up to you relatively soon.

Thanks for your patience.
Cheryl

Hi Cheryl

Sorry about the delay in getting back to you. I don't think this changes anything, except will need to give them an opportunity to make an ability to pay case if they contend they lack needed funds. It looks like the company plans to continue, at least to market fuel.

Andy
